Subject: R & B Roofing

Just a note to let you guys know you picked a winner with this one. Not only are they constantly chomping on the heels of the Steel Performance getting the roof laid, but they are doing an awesome job on the safety and daily report requirements. Above and beyond what we normally get. Such as with their daily reports I receive daily roof safety task analysis and job safety inspections signed off by all employees involved. Just thought you'd want to know.
